MODERN PLASTICS

A Breskin/McGraw-Hill Publication

770 Lexington Avenue, New York, N. Y. 10021

GENERAL INDEX OF TITLES

NOTE: For convenience in reference, titles of articles published in the Plastics Engineering and Technical Sections are repeated and grouped separately at the end of this General Index of Titles (p. 5).

A	Month	Page
A battle for building	April	83
A polyester for every purpose	February	80
A preview of plastics in construction	October	152
ABS contributes to new airplane wing concept	February	107
ABS components absorb shock in gun recoil reducer	May	114
ABS housing: maximum performance at minimum cost	May	108
ABS improves camera tripod	September	113
Acceleration of glycidyl epoxy resin-anhydride reactions	April	149
Acetal & copolymers	January	101
Acetal copolymer foot valve eliminates corrosion problems, reduces inventory	November	101
Acetal simplifies paint agitator production	January	154
Acoustic verification of structural integrity of Polaris chambers	July	137
Acrylic for tubs — high style, low cost	May	106
Acrylics	January	103
Advances in processing	October	188
All-plastics roller gun for reinforced plastics	February	105
Amphibious auto trailer cabin formed from expanded ABS laminate	April	114
Announcement to our readers (Editorial)	February	79
Appliance trends: 1963	January	114
Applications 1963 — a year of significance	January	108
Automated transfer molding brings savings of 30 percent	June	116
Automotive uses on the upswing	November	74
Avisun's Flemming: Meeting the challenge	April	44

B

Bearing pads of fluorocarbon cut bridge maintenance costs	May	111
Behavior of plastics in space environments	January	173
Big savings for the short pieces	April	98
Blow molded polyethylene trunks for plastic trees	October	204
Blow molding polycarbonate	June	130
Blown accordion-fold PE container for medical application.	January	156
Braille crossword puzzle with molded and formed parts	September	115
Brilliance for plastics through metallics	September	96
Building with stock RP sheets and shapes	October	160
... But will it work? (Editorial)	July	81
Butyrate build as a formed facade	June	107
Butyrate tubing for economical wheel balancing device	March	106

C

Calendered vinyl sheeting replaces glass in shower enclosure	May	120
Cast-in textures for vinyl	November	84
Cellulosics	January	100
Chain saw weighs less with acetal parts . .	October	208
Chicago Molded's John Bachner: Competition	October	52
Chlorinated polyether coating cuts butterfly valve costs.	October	208
Chlorinated polyethylene as impact modifier for rigid PVC	March	149
Close-tolerance parts spotlight automation in stage lighting	October	158
Colored acrylic sheet — via ultrasonics . .	August	95
Combination of foams lowers unit cost of chairs by \$1.05	May	114

	Month	Page
Coming up — multi-million lb. market . .	December	93
Composition of foam structures from expandable polystyrene beads	November	152
Computing high-rate tensile strength from static strength data	August	149
Construction trends: 1963	January	109
Cost savings through chemical machining of laminates	January	153
Costs down for sprayed-up tank bottom . .	October	131
Cut that cord (Editorial)	May	83

D

Degradation of cured paper-epoxy resulting from lamination	December	115
Desalination with RP pipe cuts cost to 15¢/1000 gal.	August	111
Design sophistication and cost saving . . .	October	132
Design triumph — frameless appliance housing.	April	88
Designing dies for monofilaments	March	133
Designing for toughness	November	91
Determination of cure of epoxy resins by infrared analysis	December	150
Determining permeability constants of wire insulation and cable jacket	June	153
Developments in polymer evaluation procedures	January	182

E

Economics of mulch; systems are the key.	October	151
Effects of glass surfaces on laminating resins	August	141
Eight-cornered PE shipping bag saves space, weight, and handling.	March	105
Eight plastics combine to crack a metal market	April	100
Elastomers broaden plastics market base.	June	86
Electrostatic web coating	September	133
Engineering a modern organ	October	155
Engineering plastics move into construction	February	94
Epoxy molding powders: new method of encapsulation for welded modules	August	133
Exteriors that attract	March	94
Extruded netting set to snare big markets.	November	80
Extruded profiles bring economies for short-run cabinets	December	108

F

Faith, hope, and charity (Editorial)	October	121
Fatigue characteristics of RP laminates subjected to axial loading	June	145
Filament-wound reinforced plastics tanks for paint emulsion storage	May	118
Filler-silane interactions	October	254
First consumer application for asbestos polypropylene	September	113
Flat cable system simplifies and speeds wire connections	April	113
Flat die vinyl film extrusion	June	138
Fluorocarbon bullet cuts barrel replace- ment in rifles, machine guns	March	105
Fluorocarbon film ends process bottleneck	October	199
Foam at the Fair	May	103
Foam package holds hot and cold food at same time	May	112
For better vinyl products	August	9

	Month	Page
For lower-cost corrosion service—PVC		
dip baskets	August	111
Formed, foam-filled butyrate bass	March	92
Foster Grant's Joe Foster: Class will tell	January	46
Free-formed blisters for beauty	March	95
Frictional properties of polyethylenes and perfluorocarbon polymers	December	139

G

General American's Jenkins: Creativity builds business	December	50
Getting a new look with valley printing	June	104
Getting the most out of polycarbonate	August	104
Getting the most out of screw injection molding machines	March	139
Giant panels for lightweight structures	February	90
Glass-asbestos-epoxy pipe used in new polypropylene plant	October	206
Glass maker proves a point in new office building	October	196
Glass-reinforced nylon solves an impact problem	November	104
Goodrich's Fowles: Confidence breeds enthusiasm	June	48
Greetings from SPI and SPE	October	175
Guide to 10th National Plastics Exposition	October	169

H

Handling of benzoyl and MEK peroxides	December	119
Here at last — a polypropylene agitator	October	128
High density polyethylene for inexpensive bicycle lamps	October	206
High-energy electron radiation resistance of plastics	October	239
High-performance plastics make new lock concept possible	June	116
High-price resin brings economies	March	99
Housewares build a new image	August	86
How engineering plastics upgrade a product and cut costs	June	96
How particle size influences molding and extrusion	October	213
How to design an "integral" hinge	October	166
How to design circular force-fit plastics joints: Part 1	April	119
How to design circular force-fit plastics joints: Part 2	May	129
How to design foam core sandwich laminates	June	125
How to design plastics springs	July	115
How to save on truck maintenance	September	110
How to specify for top performance	April	106
How to use time-dependent property data	August	119
How uniformity in molding powder influences processing of phenolics	November	135
Huge superstructure for yacht molded of reinforced plastics	December	107
Hyde's A. L. Hyde: Perseverance pays off "Hydrocure" for polystyrene foam-aluminum skin sandwich	July	48
	October	200

I

Ideas from Italy	July	98
Industrial trends: 1963	January	116
Influence of resin on plastisol fusion	April	164
Influence of stearates on thermal degradation of PVC	March	166
Impact styrene out-performs metal	December	88
Improving adhesion of polyethylene extrusion coatings	November	107
Internal cooling for blow moldings	March	130
It's a snap with PE cap	April	97
It's GO for polyethylene in go/no go gage	July	89

J

Joseph Davis: Plastics is a magic word	February	48
--	----------	----

L

Largest suspension roof	February	92
Let RP be your umbrella	March	97
Longer lasting laundry equipment	April	92
Low cost portable flooring is based on rigid foams	June	115
Lower cure time for small components	May	116

M

Machined fluorocarbon eliminates 96 fabrication steps	December	112
Machining plastics: Part 3	September	144
Machining plastics: Part 4	October	229
Machining plastics: Part 5	November	121
Machining plastics: Part 6	December	127
Machining plastics: Part 7	January	163
Magnetizable vinyl	February	102
Making truck panels automatically	March	89
Market outlook for '64	March	116
Methacrylate circular-saw guard improves safe practices	March	108
Modular motel	February	99
Molded polystyrene foam box saves cost for Navy	May	120
More accuracy in frequency filtering with polypropylene	December	111
More polyester film uses in shoes	September	104
Municipal RP litter baskets reduce maintenance costs	November	102

N

New concepts in ultrasonic sealing	March	125
New day for thin-wall containers	May	84
New design concepts in action	July	82
New design horizons for plastics	April	84
New design in giant RP roof	August	108
New directions in plastics	October	122
New jobs for stock shapes	March	84
New look for latches	April	103
New materials for multipacks	September	100
New RP technology gives the 727 a big lift	August	100
New seal improves moisture resistance of PE shipping bags	February	105
New shape for sandwiches	June	108
New sparkle for housewares	September	91
New structural laminate: polyethylene core, aluminum skins	March	119
New system speeds erection of polystyrene foam structures	August	116
New versatility in fluorocarbon-metal laminates	November	79
New ways to decorate	March	100
New wrinkle for finishes	July	90
New York World's Fair: Testing ground for plastics	February	88
New York World's Fair, Part 2	March	94
New York World's Fair, Part 3	April	108
New York World's Fair, Part 4	May	103
New York World's Fair, Part 5	June	107
1963 engineering highlights	February	122
Now — injection molded thermosets	October	144
Nylon (polyamide)	January	105
Nylon + asbestos = strength + heat resistance	June	94

O

Origin of stress failure in glass reinforced plastics	November	140
Other materials	January	106
Outlook for the industry	October	182

	Month	Page
P		
Packaging trends: 1963	January	111
PE eliminates maintenance	May	89
PE jerrycan gets OK	February	86
PE packing for industrial fume scrubbers brings weight and cost savings	December	107
Phenolic	January	97
Phenoxy blow molded into Christmas decorations	November	101
Plastics add exciting new dimensions.	May	90
Plastics add new dimension to fastener design	October	146
Plastics at the Hanover Fair	July	104
Plastics at the Osaka Fair	June	110
Plastics in Japan: progress and innovation	January	118
Plastics marble: cutting the cost of beauty	July	92
Plastics production in 1962 grouped by chemical composition	September	169
Plastics production in 1961 and 1962 grouped by classes and uses.	September	168
Polycarbonate in Japan	August	107
Polyethylene	January	87
Polyethylene mallet outlasts rawhide four to one	April	117
Polycarbonate	January	99
Polycarbonate and ABS for miner's lighting system	January	154
Polycarbonate broadens base in consumer products	April	113
Polycarbonate hits consumer trail in Japan	October	198
Polyester film insulation improves motor performance	May	112
Polypropylene	January	91
Polypropylene dispenser has ingenious "valve" action	March	106
Polypropylene server has unique dispenser-stopper	May	118
Polypropylene strapping is inexpensive but strong	October	204
Polystyrene bullet updates tree-planting technique	December	111
Polystyrene foam case holds many glass- ware shapes and sizes.	November	104
Polystyrene foam core panel generates new design ideas	July	110
Polystyrene foam for insulation — and good looks	April	117
Polyurethane foam continuously laminated and printed	May	113
Polyurethane wall protects radar equipment	December	108
Portable hair dryers: design for function .	December	90
Powder molding cracks industrial markets	April	104
Powdered PE for coating fabrics reduces production steps	March	108
Precision approach to camera design.	October	138
Prepreg from phenolic resin blend for better molding	February	107
Pressure casting slashes instrument cost 80 percent	April	94
Pressure-deflection and burst character- istics of plastics films	July	143
Prices firm up ... markets expand ... volume soars	January	84
Promise for beer cases	May	96
Putting price in its place (Editorial)	June	85
PVC tent provides easy-to-erect, portable germ-free facility	May	116
Q		
Questron's Resnick: Selling the "in-plant" concept	August	52

R		
RCI's Henry Reichhold: Global super- market	November	48
Reinforced acrylic ceiling controls light, sound, air distribution	August	114
Reinforced plastics	January	104
Repeated impact tests	May	123
Report from Dusseldorf	November	92
Report on ISO/TC 61 London meeting ...	November	158
Report on the 1963 SPI annual conference .	December	102
Report on the 10th National Plastics Exposition	December	94
Rigid vinyls from plastisols	January	159
Role of resin in reinforced plastics	September	155
RP assembly made easy	June	91
RP compressor parts make short run economical	April	114
RP forms a ceiling — from the bottom up .	June	109
RP hatch covers bring savings to barges .	September	122
RP marina rides the waves	April	110

S		
Sales remain high, new trends show up ..	March	111
Saving on shipping containers	June	113
Screw plastication — a status report	July	123
75,000 one-quart bottles a day!	August	96
Shock absorbing meter cases molded of ABS	October	202
Slit-film PE bag permits free air circula- tion for produce	July	107
SPI Reinforced Plastics Div. meeting ...	January	251
Spin-welded acetal cuts spool cost.	October	202
Spiral mold for thermosets	September	140
Stamp carries built-in ink supply in vinyl foam cells	November	102
Standard Tool's L. B. Kavanagh: One step ahead	May	50
Strength degradation of filament-wound pressure vessels	May	151
Structural design considerations for fibrous glass pressure vessels	April	127
Styrenes	January	95
Summing up the trends	June	107
Switch from cardboard to molded PS foam saves \$8000/year	July	107
Switch from metal to acetal improves siren performance	September	120
Switch from steel to phenolic in uncaser saves 50 percent	August	114
Symposium on self-extinguishing plastics .	September	166
Synthetic elastomers production in 1960, 1961 and 1962	September	170
Synthetic resin imports in 1961 and 1962 .	September	170

T		
Tank fabricated of polypropylene sheet. ...	September	122
Target for rigid PVC: the building market	September	86
Technology of super soft flexible urethane foams	May	139
The battle for bottles	June	99
The need for speed (Editorial)	November	73
The plasticizers story: 1962	September	126
The steering wheel depends on it	April	90
The year 1963 in review	February	131
Thermal insulation: where foam fit in ...	October	162
Thermosets can be extruded	October	142
Thin-wall rigid vinyl adds new dimension to packaging	June	115
This forming line is different	July	96
Throw that rule book away! (Editorial). ...	March	83
Tomorrow's train relies on RP	April	109
Tops in transportation	April	108
Transportation trends: 1963	January	113
True to form — if its RP	May	94
20th SPE technical conference	December	152

	Month	Page
Two molded nylon insulators replace 38 paper parts	May	111
U		
Urea & melamine	January	102
Urethane foam cuts cleaning cost in open grinding areas	July	112
Urethane foam insulation cuts cost for bus heating cabinet	January	156
Urethane foam insulation keeps heavy oil flowing	June	123
Urethane foam-steel panels produced at 40 to 50% savings	February	108
Urethane foams based on castor polyols . .	March	154
V		
Versatile acrylics shine in new markets . .	December	82
Vienna plastics congress	September	173
Vinyl chloride	January	92

W		
Walls of fire	March	98
Walls weigh less, cost less	March	96
Wash-away mandrels for filament winding	November	115
Washer goes all-thermoplastics	September	94
Werner Battenfeld: The emphasis is on simplicity	March	48
What a difference a year makes (Editorial)	January	83
What do you show at shows? (Editorial) . .	December	81
What you should know about mold cooling .	October	219
What's ahead for materials	October	176
What's in a name (Editorial)	August	85
Why not call it plastics? (Editorial)	September	85
Wire reinforced nylon and PE cable improves steering controls	July	112
W.R. Grace's Winne: More opportunities .	September	48

ENGINEERING AND TECHNICAL SECTIONS

PLASTICS ENGINEERING

Blow molding polycarbonate	June	130
Degradation of cured paper-epoxy resulting from lamination	December	115
Designing dies for monofilaments	March	133
Electrostatic web coating	September	133
Epoxy molding powders: new method of encapsulation for welded modules	August	133
Flat die vinyl film extrusion	June	138
Getting the most out of screw injection molding machines	March	139
Handling of benzoyl and MEK peroxides . .	December	119
How particle size influences molding and extrusion	October	213
How to design circular force-fit plastics joints: Part 1	April	119
How to design circular force-fit plastics joints: Part 2	May	129
How to design foam core plastics laminates	June	125
How to design plastics springs	July	115
How to use time-dependent property data .	August	119
How uniformity in molding powder influences processing of phenolics	November	135
Improving adhesion of polyethylene extrusion coatings	November	107
Internal cooling for blow moldings	March	130
Machining plastics: Part 3	September	144
Machining plastics: Part 4	October	229
Machining plastics: Part 5	November	121
Machining plastics: Part 6	December	127
Machining plastics: Part 7	January	163
Market outlook for '64	March	116
New concepts in ultrasonic sealing	March	125
New structural laminate: polyethylene core, aluminum skins	March	119
1963 engineering highlights	February	122
Repeated impact tests	May	123
Rigid vinyls from plastisols	January	159
Sales remain high, new trends show up . .	March	111
Screw plastification - a status report . . .	July	123
SPI Reinforced Plastics Div. meeting . . .	January	251
Spiral mold for thermosets	September	140
Structural design considerations for fibrous glass pressure vessels	April	127
What you should know about mold cooling .	October	219
Wash-away mandrels for filament winding	November	115

TECHNICAL SECTION

Acceleration of glycidyl epoxy resin-anhydride reactions	April	149
--	-------	-----

TECHNICAL SECTION (Continued)

Acoustic verification of structural integrity of Polaris chambers	July	137
Behavior of plastics in space environments	January	173
Chlorinated polyethylene as impact modifier for rigid PVC	March	149
Composition of foam structures from expandable polystyrene beads	November	152
Computing high-rate tensile strength from static strength data	August	149
Determination of cure of epoxy resins by infrared analysis	December	150
Determining permeability constants of wire insulation and cable jacket	June	153
Developments in polymer evaluation procedures	January	182
Effects of glass surfaces on laminating resins	August	141
Fatigue characteristics of RP laminates subjected to axial loading	June	145
Filler-silane interactions	October	254
Frictional properties of polyethylenes and perfluorocarbon polymers	December	139
High-energy electron radiation resistance of plastics	October	239
Influence of resin on plastisol fusion . . .	April	164
Influence of stearates on thermal degradation of PVC	March	166
Origin of stress failure in glass reinforced plastics	November	140
Plastics production in 1962 grouped by chemical composition	September	169
Plastics production in 1961 and 1962 grouped by classes and uses	September	168
Pressure-deflection and burst characteristics of plastics films	July	143
Report on ISO/TC 61 London meeting . . .	November	158
Role of resin in reinforced plastics	September	155
Symposium on self-extinguishing plastics .	September	166
Synthetic elastomers production in 1960, 1961 and 1962	September	170
Synthetic resin imports in 1961 and 1962 .	September	170
Strength degradation of filament-wound pressure vessels	May	151
Technology of super soft flexible urethane foams	May	139
The year 1963 in review	February	131
20th SPE technical conference	December	152
Urethane foams based on castor polyols . .	March	154
Vienna plastics congress	September	173

INDIVIDUAL SUBJECTS

(ab) = Abstract; (ma) = Machinery and Equipment; (pl) = Plasticscope

IMPORTANT: Annual reviews of materials, processing, and applications are not completely cross-indexed here because of their survey nature. "Patents," and "Literature" are not indexed. Also omitted from this index are those Plasticscope

items devoted to company news, personnel news, and similar items of timely news value, but not considered as reference material.

	Month	Page
A		
ABRASIVES		
Machining with	November	121
ABS - see Acrylonitrile-butadiene-styrene		
ACETAL		
Applications of, at Plastics Show	December	98
Annual report on	January	101
Bottles, markets for copolymer	June	99
Camera parts of, Polaroid	October	138
Chain saw parts, molded	October	208
Consumption of, 1962-63	January	101
Dishwasher parts of	September	94
Dishwasher parts of	April	85
Electronics design with	October	132
Japanese production of	January	121
Joints, designing force-fit	April	119
Lock parts of, combination	June	118
Machining	October	229
Paint agitator paddles of	January	154
Plumbing and hardware	July	86
Siren parts of	September	120
Spool, spin welded	October	202
Steering wheel use of, adjustable	April	90
Stock shapes, uses for	March	84
Typewriter parts, junior	June	96
Vacuum cleaner part designed for	April	106
Valve, molded	November	101
ACRYLICS - see Methyl methacrylate		
ACRYLONITRILE-BUTADIENE-STYRENE (ABS)		
Airplane wing, new concept of	February	107
Applications of, at Plastics Show	December	98
Automobile bodies, expanded	July	85
Automotive use of	November	74
Beverage dispenser	August	86
Beverage server, decorated	August	90
Camera parts of, Polaroid	October	138
Dishwasher parts of	September	94
Electroplating	March	100
Ford Mustang, parts for	July	84
Gun recoil absorber	May	114
Hair dryer parts of	December	90
Hoods and fenders, automobile	July	85
Joints, designing force-fit	April	119
Milking machine tank, blow molded	July	84
Plated lock knob	April	85
Plumbing and hardware	July	86
Meter cases, injection molded	October	202
Miner's light, use in	January	154
Serving dish	August	88
Stage lighting control rack	October	158
Stenotype machine housing	May	108
Tank liner, blow molded	April	117
Trailer cabin, expanded laminate	April	114
Tripod parts of, camera	September	113
Typewriter parts, junior	June	96
Vacuum cleaner parts designed for	April	106
ADHESIVES		
Automotive uses of	November	168
Phenolic and epoxy, high-strength (ab)	October	62
Pipe joining, RP	June	91
Plywood uses of (pl)	October	380

	Month	Page
ADHESIVES (Continued)		
Polymeric, facts about (ab)	June	66
Vinyl adhesives and sealants	December	103
Water pressure cure for epoxy	October	200
AGRICULTURE AND GARDENING		
Greenhouse film (pl)	November	45
Lawn mower gas tank, FE	April	86
Mulch systems, economics of	October	151
Polyethylene film, growth of (pl)	April	198
Tree planting, PS bullet for	December	110
AIRCRAFT - see Aviation		
ALKYD		
Ignition coil, case for automobile	October	134
Injection molding	October	144
AMINOS - see Melamine, Urea		
ANNUAL REVIEWS		
Engineering highlights, 1963	February	111
Literature, plastics	February	111, 131
Machinery 1963	March	111
Materials	January	87
Plastics industry	January	84
Production	January	84
ANTISTATIC		
Agents, review of (ab)	December	60
Compounds for PS molding powder (ab)	November	56
Polystyrene, treatment of (ab)	August	72
APPLIANCES		
Applications, review of	January	112
Italian, plastics in	July	100
SPI Conference papers on	December	102
Washing machine agitator, PP	October	128
Washing machine, plastics in Italian	July	100
APPLICATIONS 1963	January	108
ARCHITECTURE - see Building		
ASBESTOS		
Polypropylene, reinforced	September	113
ATOMIC RADIATION - see Irradiation		
AUTOMOTIVE		
Alternator insulation, nylon	May	111
Bodies, expanded ABS	July	85
Bodies, RP	November	74
Dash, polypropylene	July	102
Ford Mustang, ABS parts in	July	84
Headlight reflectors, metallized PC	August	107
Hoods and fenders, ABS	July	85
Ignition coil, alkyd and epoxy in	October	134
Instruments, plastics in Italian	July	99
Lock knob, ABS plated	April	85
New plastics applications for	July	84
Plastics in 1964 cars	November	74
Plastics in, review of (ab)	July	62
RP vehicles at World's Fair	April	108
Siren, acetal parts for	September	120
S.A.E. meeting, plastics at (pl)	February	188
SPI Conference papers on	December	104

AUTOMOTIVE (Continued)	Month	Page
Steering wheel, acetal in adjustable	April	90
Tail-lights, acrylic	December	86
Truck panels automatically made, RP . . .	March	89
Wheel balancer, butyrate	March	106

AVIATION	Month	Page
Engine shipping container, PE-glass cloth .	June	113
Fuel filter gage, PE in jet	July	89
RP in Boeing 727	August	100
Wing concept, ABS in new	February	107

AWARDS	Month	Page
Bachner	December	99
Nobel Prize to Ziegler and Natta (pl) . . .	December	190

B

BEARINGS	Month	Page
Bridge pads, fluorocarbon	May	111
Stock shapes for	March	84

BLOW MOLDING	Month	Page
Accordion-fold PE container	January	156
Bottles, high speed production of PE . . .	August	96
Bottles, market for plastics	June	99
Cooling method, internal	March	130
International Plastics Fair	November	94, 174
Literature, review of	February	120
Machine, Bekum PVC (ma)	May	54
Machine, Euro-Matic (ma)	November	52
Machine, Euro-Matic (ma)	July	52
Machine, Industrie-Werke (ma)	January	52
Machine, Kautex (ma)	January	50
Machine, Producto (ma)	April	56
Machine, Raspante (ma)	June	54
Machine, Stokes (ma)	October	56
Machine, Waldron-Hartig (ma)	August	56
Machines at Plastics Show	December	100
Machines, 1963 sales of	March	114
Milk bottles, polyethylene (pl)	May	49
Milking machine tank, ABS	July	84
Mold inserts, C.J. magnetic (ma)	August	64
Newspaper delivery receptacles, PE . . .	May	89
Phenoxy	November	101
Polycarbonate	June	130
Polycarbonate bottles	August	105
Polyethylene, new markets for (pl)	July	41

BOOK REVIEWS

Autohesion and Adhesion of High Polymers, by S. S. Voyutskii	April	60
Building Codes: Product Approvals	May	62
Engineering design for plastics, edited by E. Baer	August	70
Filament Winding, by D. V. Rosato and C. S. Grove, Jr.	July	68
Handbook of Reinforced Plastics, by S. Olesky and G. Mohr	March	60
Hochpolymer-Umschau (Survey of High Polymers), by Karl Mienes	December	64
Industrial Plasticizers, by I. Mellan . . .	May	62
Kunststoffkunde für Ingenieure (Plastics for Engineers), by Dr. Ing. C. M. von Meysenbug	July	68
Plastics Lexicon — Processing and Machinery, by A. M. Wittfoth	January	60
Plastics Molding Plant, Vol. 1: Hydraulics, Compression and Transfer Equipment, by W. R. Groves	February	60

BOOK REVIEWS (Continued)	Month	Page
Reinforced Plastics — The Industry and Suppliers	September	62
Rigid Plastics Foams, by T. H. Ferrigno .	June	64
Textbook of Polymer Science, by F. W. Billmeyer Jr.	October	68
Wellington Sears Handbook of Industrial Textiles, by E. R. Kaswell	November	62

BOTTLES

Decorating machine, Therimage (ma) . . .	July	58
Environmental stress rupture of (ab) . . .	February	62
Fabrication technique, effect on PE (ab) .	October	62
Flame treating conveyor, Foremost (am) .	August	54
Life testing of PE, accelerated (ab) . . .	April	62
Milk, PE disposable	May	88
Milk, polyethylene (pl)	May	49
Polycarbonate, blow molded	August	105
Plastics, markets for	June	99
Printer, Polypac (ma)	June	54
Production of PE, high speed	August	96
PVC, properties of (ab)	June	66
Reamer, C. J. (ma)	January	54
Reamer, Strong (ma)	September	52

BUILDING

Acrylics, applications for	December	82
Applications, review of	January	108
Bathroom, prefabricated PVC-urethane . .	October	306
Bathtubs, acrylic	December	85
Bathtubs, acrylic	May	106
Ceiling tile, PVC	October	154
Ceilings, reinforced acrylic	August	114
Cement, resin dispersions in Portland (ab)	December	60
Concrete block laid up with PE disks . . .	October	309
Concrete forms, PVC	July	105
Concrete forms, RP	May	94
Concrete forms, RP	June	109
Door latch part, reinforced nylon	November	104
Doors, PVC	September	86
Facade, sheet-formed butyrate	June	107
Fire safety with plastics (ab)	July	62
Gutters, PVC	September	86
House, plastics research	October	152
International Plastics Fair	November	96
Lock, plastics in door	June	118
Marble, plastics	July	92
Motel, plastics in modular	February	99
Office building, plastics in	October	196
Panels, acrylic bubble-textured	March	94
Panels, extruded PVC	September	175
Panels, PVC-urethane foam	July	101
Panels, use of plastics	June	107
Pipe, PVC drain	September	90
Plastics' share in (Editorial)	April	83
Plywood-styrene foam panels, floor and roofing	June	108
PVC, rigid, in building products	September	86
RP curtain walls, exterior	October	196
RP sheets and shapes, stock	October	160
Roof, acrylic stadium (pl)	November	41
Roof, modular RP	July	101
Roof, RP stadium	August	108
Roofing, PVC	September	86
Roofing, urethane foam tile	May	105
Sandwich constructions, PVC-styrene foam	June	108
Screens, acrylic	December	83
Shutters, rigid vinyl	July	101
Siding, PVC	September	86
Siding, PVC	October	152
Siding, PVC (pl)	January	41
Siding, vinyl	June	108
Skylights, acrylic	December	85
SPI Conference papers on	December	102, 104
Structures, foam	August	116
Termito resistance of plastics (ab)	September	58
Terrazzo flooring, epoxy in	July	95
Thresholds, PVC	September	180
Tubs, acrylic bath	December	85

BUILDING (continued)	Month	Page

STATISTICS

Acetal consumption, 1962-63	January	101
Acrylic consumption, 1962-63	January	103
Automotive use of plastics	November	74
Cellulose ester sales, 1955-63	January	100
Dispersion resin consumption, 1958-63	January	93
Elastomer production, synthetic	September	170
Epoxy resin sales, 1960-63 (pl)	May	200
Foam, markets for styrene (pl)	June	45
France's plastics output booming (pl)	May	224
Imports, synthetic resins, 1961-1962	September	170
Italian plastics production	July	98
Japanese imports, exports 1961-62	January	124
Japanese imports, exports	June	110
Japanese plastics production, 1960-62	January	123
Machinery in use, age of	March	116
Machinery, predicted sales growth of	March	116
Machinery sales, 1963	March	111
Machinery, sales of used	March	117
Material costs, plastics and metals (pl)	May	208
Melamine resin sales, 1955-63	January	102
Nylon consumption, 1962-63	January	105
Phenolic consumption, 1955-63	January	97, 98
Plasticizers, 1962	September	126
Polycarbonate resin consumption, 1962-63	January	99
Polyesters, growth of (pl)	May	47
Polyethylene consumption, 1958-63	January	88
Polyethylene film and sheet consumption, 1958-63	January	90
Polyethylene, growth of (pl)	May	41
Polyethylene sales growth, 1953-63	January	87
Polypropylene consumption, 1961-63	January	91
Polyvinyl chloride resin sales, 1955-63	January	92
Price levels, current	October	187
Production and sales, first half 1963	October	184
Production figures, 1961-1962	September	168
Production, 1938-63 plastics	January	85
Profits, past and present	October	185
PVC vs plasticizer production	September	127
Reinforced plastics sales, 1963-64	January	104
Sales, 1963 material	January	84
Styrene resin consumption, 1962-63	January	96
Styrene resin sales, 1955-1963	January	95
Styrene resin production	January	96
Urea resin sales, 1955-63	January	102
Vinyl film, consumption of calendered	January	94
Vinyl, growth of (pl)	May	41
Vinyl growth, rate of (pl)	October	43

STOCK SHAPES, USES FOR	March	84
